

ADDENDUM No.2

August 28, 2017

The following questions have been submitted by a proposed Vendor for the project:

1. Do they have any loaders at the plant to be used by the Contractor?
(A) → No, the City does not provide a loader for the Contractor's use.
2. How much storage do they have at the WWTP.
(A) → There is 16,766 ft² of covered storage space behind the new solids handling building. There is adequate space adjacent to the solids handling building for spare tankers, etc.
3. How long does it take to load 6,200 gallon truck? RFP stated 45 minutes but seems like a typo.
(A) → According to the current Contractor, it takes 10 to 15 min to fill up a 6500 gal tanker
4. Can we put line item for lime + cost? Due to the variability of lime cost?
(A) → A revised price sheet has been supplied. Vendors are instructed to use the revised price sheet.

This Addendum modifies and supplements the City's issued **Request for Proposal for Wastewater and Water Plant Residuals Removal**. The Contractor is required to submit this completed sheet to indicate receipt and acceptance of the modifications.
