- **NO CLOTHES OR BLANKETS AT THIS TIME**

We urge all citizens to monitor local forecasts and storm predictions as Hurricane Florence is a very powerful storm capable of producing massive damage to all in its path.

Currently the hurricane is 409 miles wide. North Carolina is approximately 544 miles from Manteo to Murphy and 180 miles from South Carolina to Virginia. When the eyewall makes landfall on the NC Coast the impacts of Hurricane Florence will be felt throughout Rockingham County.

Stay out of flooded waters as these waters are contaminated with many sources of bacteria.

Flowing water can easily sweep people, cars, equipment, etc. away.

Please remember **“Turn Around Don’t Drown”**
